

1) MAGNA-GRIP® FASTENER: Provides a strong, rattle-resistant, wide grip range fastening solution. Spec them for lower rub rails, steps, roof caps, side sheets and cab assembly.

2) C6L FASTENER: Made in aluminum, carbon steel and stainless steel. Gives you a high-strength, consistent, non-loosening clamp. Ideal for corner castings, drip mountings, fender attachments, back and side assembly, radiator mountings and steps. Also available in a stainless clad head for rust free service (production quantities only).

3) MGP-30 FASTENER: A metal-to-metal low profile fastener effective for tamper resistant trailer door assembly.

4) MAGNA-BULB® FASTENER: Especially suited to high-volume and automatic installations involving thin or low-strength materials such as plastic, aluminum and fiberglass, as well as repair applications in out-of-round holes.

5) MAGNA-LOK® FASTENER: A blind side fastener for sheet metal with circle-seal lock that makes it vibration resistant. Available in aluminum, carbon and stainless steel, the Magna-Lok fastener is designed for roof caps, side sheets, corner castings, roof liners and warning light assemblies.

6) B.O.M.® FASTENER: Huck's structural blind oversized fastener for internal frame supports, mounting brackets, and doors.

7) HUCKTAINER® FASTENER: A two piece fastener designed for fiberglass, plastic and metal-clad plywood to metal fastening. Provides a weather-proof, tamper-proof, uniform clamp.

8) MAGNA-TITE® FASTENER: An advanced watertight, polymer sealant makes Magna-Tite perfect for oversize holes and repair applications. It's built in a wide grip range and its large blind side footprint substantially reduces fastener pull-out for installation in thin or low-strength materials such as aluminum, fiberglass and plastic.

9) HP8® FASTENER: A two piece, Grade 8 fastener designed for permanent installation. Handles tough jobs like cross members, frame assembly, spring hangers and fifth wheels.

10) HUCK-FIT® FASTENER: Huck's newest Grade 8 fastener with prealigning fit-up capabilities. Comparable to the HP8 in frames, fifth wheel assembly and engine mounts. The Huck-Fit fastener offers a removability option.
